

Waste Water Quality

Public Awareness and Communications Programme

Mayo County Council has put in place a Public Awareness & Communications Programme (PACP) in relation to Waste Water Treatment Plants (WWTPs) and their discharges within County Mayo. The purpose of the PACP is to advise the general public on how waste water is processed throughout the county.

The Environmental Protection Agency (EPA) oversees waste water discharges from WWTPs through the issuing of Waste Water Discharge Licences.

Mayo County Council have applied to the EPA for Waste Water Discharge Licences for all relevant WWTPs in the county and the locations which have been granted licences to date are listed in the table below.

As each licence is granted, Mayo County Council establishes a Public Awareness File containing environmental information such as monitoring results, reports, complaints and details of any incidents. These files are available for public viewing at the locations listed below. Addresses and contact details for the Mayo County Council Area Offices are available on the Mayo County Council website using the following link: <http://www.mayococo.ie/en/YourCouncils/AreaOffices/>

**Mayo County Council Area Offices are open Monday – Friday from
9am – 1pm and from 2pm – 5pm.**

Waste Water Discharge Licences Granted by the Environmental Protection Agency (EPA)			
Waste Water Treatment Plant	Licence Registration Number	Status	Local Area Office where Environmental Information may be viewed
Achill Island Central (Keel, Dooagh, Pollagh)	D0072-01	Licensed	Belmullet
